

Important Announcement

The Most Advanced Anti Static Laundry Belting on the Market Today.

This “new” product is ph resistant for even longer life and with 5 positive conducting threads in every belt static will be a thing of the past

A picture says 1000 words (positive continuity through every belt.)

Let the team at Cobro do an “overnight” make over on your folder.

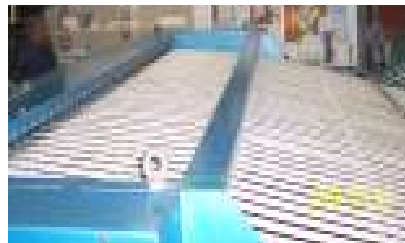

As part of our service, if you purchase a full table of made to length belting (40+) the Cobro team will:

- Remove the old belting to be replaced.
- Strip all the old crowning off the rollers
- Clean & de lint P.E. cells or micro switches
- Correctly align and fit new crowning.
- Fit new Anti static belting.
- Correctly tension new belting

All this! And all you pay for is a full table of made up belts (40+)*. All this work is done after regular production has ceased for the day.
